

Access VSCode Server terminal

► Troubleshooting

Login to Kiro CLI and start Kiro Chat

1. Login to Kiro CLI

```
1 kiro-cli login --use-device-flow
```

Select login method · Use with Builder ID

Output:

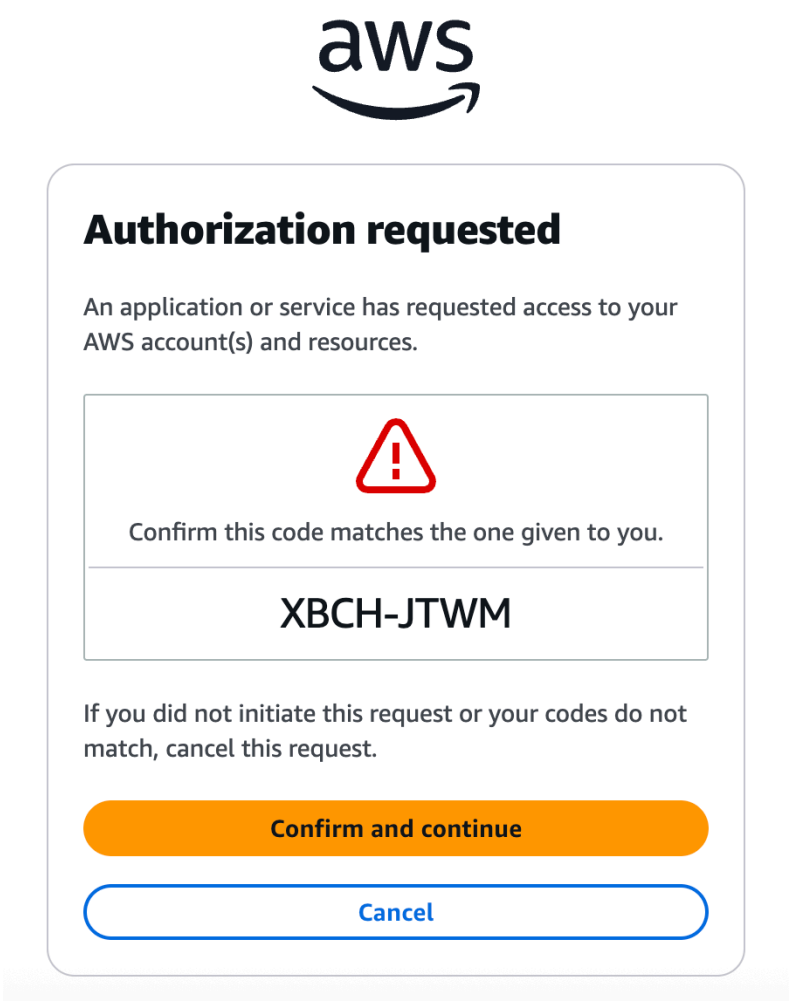

```
1 ✓ Select login method · Use with Builder ID
2
3 Confirm the following code in the browser
4 Code: XBCH-JTWM
5
6 Open this URL: https://view.awsapps.com/start/#/device?user_code=XBCH-JTWM
7 ■■■■■■ Logging in...
```

```
participant: /Workshop$ kiro-cli login --use-device-flow
✓ Select login method · Use with Builder ID

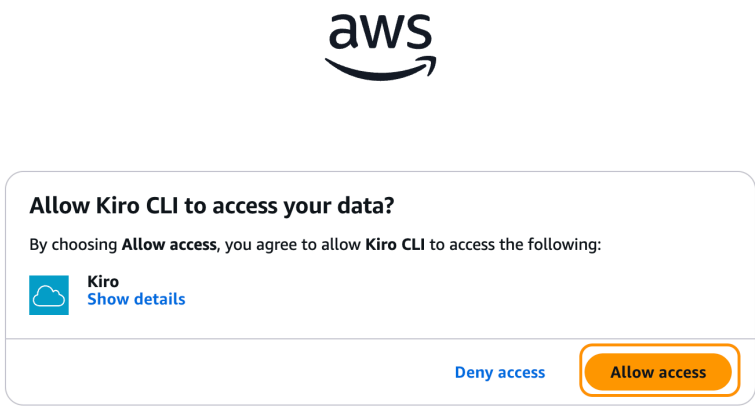

Confirm the following code in the browser
Code: XBCH-JTWM

Open this URL: https://view.awsapps.com/start/#/device?user_code=XBCH-JTWM
■■■■■■ Logging in...
```

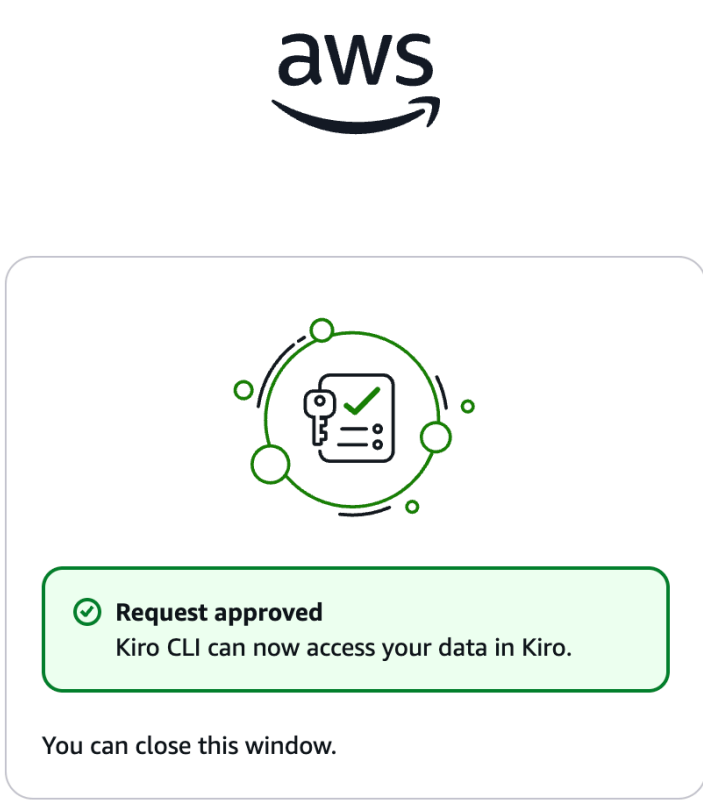

2. Copy the URL: https://view.awsapps.com/start/#/device?user_code=XXXX-XXXX and open it in a web browser
3. Confirm the Authorize Requested.

4. Allow Kiro for Commandline to access your data.

5. The request has been approved and you can close this window.

6. Navigate back to VSCode, you will see Logged in successfully

```
Open this URL: https://view.awsapps.com/start/#/device?user_code=XBCH-JTWM
Device authorized
Logged in successfully
participant: /Workshop$
```

7. Start a chat with Kiro

```
1 kiro-cli chat
```

```
participant: /Workshop$ kiro-cli --version
kiro-cli 1.20.0
participant: /Workshop$ kiro-cli chat

KIRO

Jump into building with Kiro:

1. Ask a question or describe a task
2. Use /context add <file> to provide Kiro with additional info
3. Connect to external tools with by using /mcp

Use /help for more information and happy coding!

Model: Auto (/model to change) | Plan: KIRO FREE (/usage for more detail)

>
```

8. Select a model for the current conversation session

```
1 /model
```

You can use the default version

```
> /model

Press (↑) to navigate · Enter(=) to select model
> Auto (current) | 1x credit | Models chosen by task for optimal usage and consistent quality
  claude-sonnet-4.5 | 1.3x credit | The latest Claude Sonnet model
  claude-sonnet-4 | 1.3x credit | Hybrid reasoning and coding for regular use
  claude-haiku-4.5 | 0.4x credit | The latest Claude Haiku model
```

Congratulations!! You're now ready to chat with Kiro CLI.

Note: For other operating systems, please see the installation guide [here](#)
