

This option provides free access to Kiro through AWS Builder ID. The free tier includes:

- Basic code suggestions and completions
- Code explanations and documentation
- Basic security scanning
- Standard usage limits

Prerequisites

- Valid email address for AWS Builder ID registration
- No AWS account required

Steps

Follow these steps in order:

1. [Create an AWS Builder ID](#)
2. [Setup Kiro CLI](#)

Note

AWS Builder ID is a personal profile that allows you to access AWS services and tools without requiring an AWS account.
