

In this lab, you'll use Kiro to create a basic web application. You'll learn how to leverage Kiro to generate code, explain concepts, and help you build a functional web application, and then learn how to use advanced prompting techniques with Kiro to significantly enhance your Sudoku web application. By crafting more detailed and specific prompts, you can get better results and build a more sophisticated application.

Prerequisites

Note

Complete [Lab 1 - Setting Up Kiro](#)
